

2-Way Active Loudspeaker

Model: QSX10A

Instruction Manual

IMPORTANT INSTRUCTIONS AND WARNINGS

Thank you for buying the XP AUDIO YAX10A. This product comes with a 1-year warranty against manufacturing defects.

SAFETY INSTRUCTIONS

- Do NOT open the device. Opening the device may result in serious injury or death.
- Do NOT operate the device if it is wet or has been exposed to moisture. Operating the device when wet could lead to an electric shock that could cause serious injury or death.
- Do NOT operate the device with a voltage that exceeds its capacity.
- Do NOT bend or crimp the power cable.
- Do NOT use the device in any manner besides its intended purpose. Incorrect operation of this device could lead to electric shock and/or fire.
- Exposure to loud sound may lead to deafness or hearing loss. Operate the device with care.
- Always disconnect the device from the electrical outlet when you have finished operation, as well as, before cleaning or moving the device.

GENERAL GUIDELINES

- Familiarize yourself with the device before operation.
- If the product needs to be returned to the company for any reason then please use the original packaging which the device arrived in.
- Do NOT modify the device in any way. Modifications may void your warranty.

CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

For FCC Class B use of this digital device: (Residential use)

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Do not dispose
of device in trash

Made in China
